

PRESS RELEASE

IN-SONORA VIII

coming to Madrid!! The arrival of spring brings a new program of expositions and live events based on sound and interactive art that can be viewed free of charge beginning on March 13th.

Installations, live events, workshops, listening pieces, web art and videos can be seen and heard from **March 13th to April 11th 2014** in spaces such as the **National Art Museum Reina Sofia, IED, European Institute of Design Madrid, Off Limits, Twin Gallery, CENTROCENTRO** and **Cruce**.

The goal of the biannual show is to give visibility to local and international artists, supporting experimental, contemporary art proposals in which sound and interactivity are the principle elements of the piece.

In this 8th edition, the show will feature a total of **36 proposals, both from individual artists and collectives, from 16 different countries**. The participants were chosen after an open public call in April of last year.

IN-SONORA is already a must for everyone interested in meeting new artists in the contemporary art scene. This opportunity begins for those who are in Madrid on March 13.
